

## Excluded Business Categories in the Republic of Ireland for the eTOV Scheme

NACE codes help guide the selection of businesses that fall outside the primary target of the European Trading Online Voucher Scheme. Specific sectors, identified by their NACE codes, are excluded from the scheme due to factors such as business scale, employee count, or turnover that place them beyond the intended benefits of this voucher.

However, businesses within these sectors that meet the eligibility requirements for size, employment, and turnover may still qualify if they present a unique or innovative approach that aligns with the scheme's goals. In these cases, eligibility may be granted regardless of NACE code, subject to discretion. Businesses can check their NACE code through CRO registration.
